

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

THE
Accounts of the Wardens

OF THE
PARISH OF MOREBATH,
DEVON.

1520—1573.

TRANSCRIBED BY THE
REV. J. ERSKINE BINNEY, M.A.,
SOMETIME VICAR OF MOREBATH.

With a Glossarial Index

BY THE
REV. F. W. WEAVER, M.A., F.S.A.

EXETER :
JAMES G. COMMIN, 230, HIGH STREET,
1904.

Reg. no. 4-1 26
 31957

INTRODUCTION.

The accounts in this volume are printed from a document first brought to light by Rev. Sackville Berkeley, when Vicar of the parish of Morebath, near Bampton, Devon, to which they belong, and of which they give a record at a most interesting period. Mr. Berkeley contributed a short paper on this document to the proceedings of the Somersetshire Archæological Society in the year 1883.

A successor, Rev. J. Erskine Binney, transcribed the whole of the MSS. up to the year 1573, and, by the kindness of the present Vicar of Morebath, Rev. Annesley Voysey, has revised his transcript by the original, and has seen the sheets through the press.

The value of the document is:

- (a) That the entries comprise a period of great importance in the Church of England from 1520 to 1573.
- (b) That for all this time it was written by one person (except in one year when a few lines are by another hand), the Vicar, Sir Christopher Trychay.
- (c) The number of stores connected with the Church, and the amount of property belonging to each store. There were eight of these, viz.: 1, S. George, the Patron Saint; 2, Jesus; 3, Our Lady; 4, S. Sidwell; 5, S. Antony; 6, The Almslight; 7, the young men; 8, the young women; besides a company of three, four, or five men, who seem to have formed a kind of Parish Council, and received the surplus from the eight stores for the general benefit of the parish.
- (d) The great interest taken by the parishioners in their Church and the worship therein.

A notable instance of this occurs when a thief broke into the Church and stole a chalice. The young men and maidens immediately undertook to collect a sufficient sum to provide a new chalice. The list of vestments is large for a small country parish. There is a sort of pathos in the story of how the Vicar had devoted his wool tithes in order to buy

a suit of black vestments, and he succeeded, with the help of some timely gifts and bequests, in procuring them just a year before they were all put away amongst the farmers of the parish, to avoid confiscation by the King's Commissioners.

The reader will observe two interesting notes about the Parish Clerk and the list of Dame Rumbelow's goods and chattels, which gives us a price current of the period. The parish was, much as it is now, cut up into various holdings, of which most of the names still survive. At first it belonged to the Priory of Barlynch. On the dissolution of these smaller houses in 1538 it fell into the hands of the Powletts. Mr. Hugh Powlett's name occurs more than once in the MS.

A Glossarial Index containing most of the unusual words is appended by the help of the Rev. F. W. Weaver, M.A., Vicar of Milton, Somerset; but even in the ordinary words the reader will have to take account of Sir Christopher Trychay's peculiarities of spelling, and of his introduction of little bits of very bad Latin. Moreover, he is not constant to any one form of spelling except in one respect. When 'an' comes before a word commencing with a vowel, he joins the 'n' on to the following word, *e.g.*, we find a nox, a noke, for an ox, an oak, etc.
